

Study Design Specifications Template Completion Instructions

This template is used to capture details regarding the study design required in support of your clinical protocol. The following details are required. Please do not alter the structure or formatting of the existing worksheets; do not delete standard columns or change column headers.

Worksheet	Detailed Instructions
Document Version History	Complete the Document version history tab following the instructions provided on the tab. ASB (Annotated Study Book) mock up should be referenced in this section along with a summary of changes.
Time And Events	Complete Time and Events with the list of unique forms and provide the Study Design Specifications (SDS) in the ticket to initiate database build in Central Designer. Please follow instructions on the Time and Events tab to complete the various sections. NOTE: this tab will be overwritten at finalization with export from Central Designer.
Dynamics	Record Dynamics specifications for forms and for visits. Dynamic specifications should be finalized prior to SDS approval. Dynamics is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for dynamics that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Dynamics applicable. Please follow instructions on the Dynamics tab to complete sections.
Display Overrides	Record Display Overrides for Rights Groups that differ from 'Item Default Display Override' documented in the ASB. This tab should be used if a User Group (known as a Rights Group) should be given a different display override than item default. For example, Serious Adverse Event Number is set to 'read only' as the default but should be updated to 'enterable' for Study Data Set Manager (SDSM) and Lead Data Manager (LDM) Rights Group Display overrides specifications should be finalized prior to SDS approval. Display Overrides is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for overrides that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Display Overrides applicable. Please follow instructions on the Display Overrides tab to complete sections.
DSOPI-CAL Reference	Record the Randomization, subject status information. Column headers should not be changed but can add rows when necessary.
SRDM Reference	Get the latest SRDM reference from PMDR and modify the rows when necessary. Column headers should not be changed. The rows which are necessary for the study should be highlighted in yellow.
Non-CRF Data	This tab is to be populated with data type and the vendor name used for the study. Create a row for each data type and vendor name. The Data Review Tier column for non-CRF data should be completed assessing the entire set of external data (e.g. central lab, ECG) module by module.
Data Review Tier	Percentage of SDV is a product of the the IQMP white boarding process where discussions with the study team determine the appropriate level of SDV required for your study. Data review details are to be populated at SDS finalization with an export from Central Designer (Custom Metadata Report). See the Optimizing Data Review training for a full definition of each data tier.

DMB07-GSOP-RF23 9.0 STUDY DESIGN SPECIFICATIONS TEMPLATE FOR INFORM

Study Specific DMW Spec	Optional Tab: Only for studies with approval to deviate from the Standard build that will need to document study specific SRDM changes. Studies using standard DMW mapping should delete this unused, optional tab.
The SDS tabs are color coded as follows:	
Tab Color	Completion Details
Grey	Informational; no changes required
Yellow	Populated during build or when updates are required after Study Design Specs have been approved. Check for completion/accuracy at time of finalization/sign off. Note: Time and Events tab will be over written by Data Management at finalization/sign off with export from Central Designer provided by the InForm Database Programmer (IF DB programmer). See detailed instructions in the Data Management Study Design Activities document.
Green	Populated at finalization/sign off by export from Central Designer by Data Management. See detailed instructions in the Oracle Central Designer for the Clinical Data Scientist: User Guide document.

Document Version History

NOTE: Amendments made to study design specifications should be documented here with summary or reason for the changes with any study amendment. This description s specific.

Version	Author	Date	Updated SDS tab (if applicable)	Summary / Reason for Change(s)
V 1.0	Ming Jiang	28-Jun-2019	Not Applicable	Initial Version
V2.0	Ming Jiang	08-Jul-2019	Form Metadata	Updates due to UAT findings and QG review comments;
V3.0	Chuchu Zhang	10-Jul-2019	Form Metadata	Update item PCTPTREF_1 and PCTPTREF_2 to not required;
V4.0	Chuchu Zhang	10-Feb-2020	Time and Events	Add MONTH2 visit; remove BASELINE_HEARING EVALUATION at DAY1; remove SALT_AGA at visits apart from MONTH24_EOT and EARLY_TERM; add PREMENARCHAL CHECK page at MONTH2, MONTH4, MONTH5, MONTH7, MONTH8, MONTH10, MONTH11, MONTH13, MONTH14, MONTH16, MONTH17, MONTH19, MONTH20, MONTH22, MONTH23; add 5 IE pages for PA1
V4.0	Chuchu Zhang	10-Feb-2020	Dynamics	Update the logic of triggering condition for HAMILTON-NORWOOD SCALE FOR ANDROGENETIC ALOPECIA, IE_FAP page, SALT_AGA, BASELINE_HEARING EVALUATION; Add the logic of triggering condition for IE_PA1 pages and MONTH2 visit
V4.0	Chuchu Zhang	10-Feb-2020	Display Overrides	Update 6 variables to Read Only for PIE, SDE role
V4.0	Chuchu Zhang	10-Feb-2020	Form Metadata	Update protocol version page to include "Amendment 1 <15-OCT-2019>" as code list of cllnFPRTVER; Remove "LAB ID" from LB002_PREG_U and LB002_PREG_3
V4.0	Chuchu Zhang	10-Feb-2020	SDV	Update the "Item SDV Required" field for all the items in 3 forms (HAD004, SF2002, SIN001) to "NO" as they are not critical data

should be detailed and
