

Study Design Specifications Template Completion Instructions

This template is used to capture details regarding the study design required in support of your clinical protocol. The following details are required. Please do not alter the structure or formatting of the existing worksheets; do not delete standard columns or change column headers.

Worksheet	Detailed Instructions
Document Version History	Complete the Document version history tab following the instructions provided on the tab. ASB (Annotated Study Book) mock up should be referenced in this section along with a summary of changes.
Time And Events	Complete Time and Events with the list of unique forms and provide the Study Design Specifications (SDS) in the ticket to initiate database build in Central Designer. Please follow instructions on the Time and Events tab to complete the various sections.
Dynamics	Record Dynamics specifications for forms and for visits. Dynamic specifications should be finalized prior to SDS approval. Dynamics is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for dynamics that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Dynamics applicable. Please follow instructions on the Dynamics tab to complete sections.
Display Overrides	Record Display Overrides for Rights Groups that differ from 'Item Default Display Override' documented in the ASB. This tab should be used if a User Group (known as a Rights Group) should be given a different display override than item default. For example, Serious Adverse Event Number is set to 'read only' as the default but should be updated to 'enterable' for Study Data Set Manager (SDSM) and Lead Data Manager (LDM) Rights Group. Display overrides specifications should be finalized prior to SDS approval. Display Overrides is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for overrides that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Display Overrides applicable. Please follow instructions on the Display Overrides tab to complete sections.
DSOPI-CAL Reference	Record the Randomization, subject status information. Column headers should not be changed but can add rows when necessary.
SRDM Reference	Get the latest SRDM reference from PMDR and modify the rows when necessary. Column headers should not be changed. The rows which are necessary for the study should be highlighted in yellow.
Non-CRF Data	This tab is to be populated with data type and the vendor name used for the study. Create a row for each data type and vendor name. The Data Review Tier column for non-CRF data should be completed assessing the entire set of external data (eg, central lab, ECG) module by module.
Data Review Tier	Percentage of SDV is a product of the IQMP white boarding process where discussions with the study team determine the appropriate level of SDV required for your study. Data review details are to be populated at SDS finalization with an export from Central Designer (Custom Metadata Report). See the Optimizing Data Review training for a full definition of each data tier.

DMB07-GSOP-RF23 9.0 STUDY DESIGN SPECIFICATIONS TEMPLATE FOR INFORM

Study Specific DMW Spec	Optional Tab: Only for studies with approval to deviate from the Standard build that will need to document study specific SRDM changes. Studies using standard DMW mapping should delete this unused, optional tab.
The SDS tabs are color coded as follows:	
Tab Color	Completion Details
Grey	Informational; no changes required.
Yellow	Populated during build or when updates are required after Study Design Specs have been approved. Check for completion/accuracy at time of finalization/sign off.
Green	Populated at finalization/sign off by export from Central Designer by Data Management. See detailed instructions in the Oracle Central Designer for the Clinical Data Scientist: User Guide document.

C3671013

Document Version History

NOTE: Amendments made to study design specifications should be documented here with summary or reason for the changes with any study amendment. This description should be detailed and specific.

Version	Author	Date	Updated SDS tab (if applicable)	Summary / Reason for Change(s)	Protocol / Amendment Approval Date for this SDS version
V 1.0	S.Preethi	23-Jul-21	Not Applicable	Initial Version	7-Jul-21
V2.0	S.Preethi	3-Aug-21	Form Metadata	1.Addition of New Item: SUPPCE_SODSDUR_006 to the CESOD006 CRF 2.MH001_1 removed and replaced with MH001_3	7-Jul-21
V2.0	S.Preethi	3-Aug-21	DSOPI-CAL Reference	Included DS001_6	7-Jul-21
V2.0	S.Preethi	3-Aug-21	SDV	1.Addition of SUPPCE_SODSDUR_006 2.Removed SDV from DEMOGRAPHY MAIN INFORMED CONSENT RANDOMIZATION DISPOSITION - TREATMENT DISPOSITION - FOLLOW-UP WITHDRAWAL OF CONSENT CONTACT OUTCOME - UNPLANNED REACTOGENICITY INCLUSION/EXCLUSION CRITERIA PRE-SPECIFIED SIGNIFICANT MEDICAL HISTORY - ONGOING SUBSTANCE USE VITAL SIGNS - UNPLANNED REACTOGENICITY	7-Jul-21
V2.0	S.Preethi	3-Aug-21	Display Overrides	1.Updated form title,form ref.names and Item ref.names for MH001_3 2.Updated form title for PR001_3 and CM001	7-Jul-21
V2.0	S.Preethi	3-Aug-21	Time and Events	Updated form title,form ref.names to PRE-SPECIFIED SIGNIFICANT MEDICAL HISTORY - ONGOING and	7-Jul-21
V2.0	S.Preethi	3-Aug-21	Not Applicable	Removed MH001_1 from SRDM tab and included MH001_3	7-Jul-21
V2.0	S.Preethi	3-Aug-21	Dynamics	1.Removed contact outcome follow up and updated form title to NON-DRUG TREATMENTS- RESPIRATORY TREATMENT-RIV from WF_UNPL_RESP_ILL 2.Updated trigger form,trigger question,item ref.name and logic for GC20_MH_COPD	7-Jul-21
