

C4891002

Document Version History

NOTE: Amendments made to study design specifications should be documented here with summary or reason for the changes with any study amendment. This description should be specific.

Version	Author	Date	Updated SDS tab (if applicable)	Summary / Reason for Change(s)
V1.0	Rachna Singh	03-Aug-2022		Initial Version
1.1	James Bass, Lydia F. Nazaire	11-Aug-2022	SRDM Reference	1.Updated Reftable for: MH001_2_1, DS001_7_1, DS001_7_2, DS001_10, DS001_11 2.Unhighlighted from Reftable: FORMREFNAME: TUTMM005/ ITEMREFNAME: TRORRES_DIAMETER_005 3. ITEMREFNAME: RSCAT_001 for FORMREFNAME: CM001_1 4. ITEMREFNAME: RSCAT_001 for FORMREFNAME: CM001_1
			Dynamics	1.Rule Name was added to row #38; Rows # 44, 45 & 46 deleted. 2.Updated Target Form Titles with form titles and refnames 3. Removed Rule GC3_DD002 4. Updated logic for RECIST rules 5. Updated Form Short titles for (Z_MBIO005_2), (Z_MBIO005_1), (R_OMIC003), (EC001_5_1), (PR001_1), (VS001_3), (MH001_2) 6. Removed TARGET LESIONS (TUTMM003_1), NON-TARGET LESIONS (TUTMM006_1), NEW LESIONS (TUTMM005) from RECISTWK12 - RECIST WK96 7. Updated to D_UNPLASS_001 = LAB CHEMISTRY - HYS LAW and Updated to D_UNPLASS_001 = LOCALLY READ ECGs
			Data Review Tier	1. DDTEST_002 is READ ONLY so item SDV required was updated to "No" and Data Review to "Minimal"

			Time and Events	1. Visit Short Title for SUBJECT STATUS was updated to SUBJSTAT. 2. Updated Start hours and The protocol window 3. Updated Scheduling and scheduling row (Scheduled/Dynamic/Unplanned (indicate using 'S', 'D' and/or 'U') for Safety Follow-Up 4. Changed DTH DTL to a static form 5. Visit Short Title/Refname updated for Safety Follow-Up and Survival Follow-Up 6. Updated Visit Title for Screening to Title Case, and refname to SCR
			Display Overrides	1. Updated Display Overrides tab, Coders Read Only Fields Group to include: D_DDORRES_PRCPTH_OTH_002, SUPPCM_CMDSREAS_001_1, SUPPCM_CMDISRO_001_1, SUPPCM_CMDSREAS_001_1_1, SUPPCM_CMDISRO_001_1_1, X_DS_WDRLPHS_001, X_DS_WDRLREA_001 2. Updated SITE HIDDEN group- removed Read Only: Lead Data Manager, Study Data Set Manager, Read Only
V1.2	Lydia F. Nazaire	16-Aug-2022	Time and Events	Updated Logs, Disposition, Subject Status and Investigator Signature Visits from Scheduled to Unscheduled in the Scheduled/Dynamic/Unplanned row.
V1.3	James Bass	29-Aug-2022	Not Applicable	1. LB001_14 – Lab Chem form is missing Bilirubin_PX21 2. Z_MBIO005_2, Z_MBIO005_3, Z_MBIO005_4, Z_MBIO005, Z_MBIO005_1 - Specimen Collection Procedure Date range needs to be expanded to 1930-2032 3. MIMBIO004, MIMBIO004_1, MIMBIO004_3- Date of sample collection date range needs to be expanded to 1930-2032 4. Replaced dummy codelist items with the actual codelist items for CM001_1 and CM001_1_1 5. X_DS_SLOPD001: updated codelist for X_DS_WDRLREA_CL_001

option should be detailed

Protocol / Amendment Approval Date for this SDS version

SAS Format	SAS Label	Nullable	Filter / SDTM	Column Alias	Masking Level(COLUMN/CELL)	Masking Value	Masking Criteria	Programming Notes
\$30.	Evaluator	Yes		FORMREFNAME				Value defaulted based on the FORMREFNAME as defined in the study-level reference table. RSEVAL_001 column is added in the study level because it is retired in stadard templete and however it is required for this study so added defaulted expression to it no metadata change or update needed . Please find the start ticket 215977, 204520 for your reference , I have confirmed with standards team(@Kumar B, Chetan) they suggest to proceed with the study specific changes.
\$11.	Subject Visit Date	Yes	SVSTDTC					The item DOV is incorrectly mapped from 900_FT table instead of mapping it from CM001_1_STG, Please find the start ticket 219159 , for your reference , I have confirmed with standards team(@Kumar B, Chetan) they suggest to proceed with the study specific changes , since the changes are not updated in the standard template .
40	IM Stage - N # Ini	Yes		RRES_TNMSTGN	NA	NA	NA	In MH001_2 form, RSORRES_TNMSTGN_001_2 has length mismatch ,in 002 INF model length was 4 and 001 SRDM model length was 3 and the start ticket was already raised for this length issues ,It please find the start ticket 215977 for your reference. I have confirmed with standards team(@Kumar B, Chetan) they suggest to proceed with the study specific changes.

Study Design Specifications Template Completion Instructions

This template is used to capture details regarding the study design required in support of your clinical protocol. The following details are required. Please do not alter the structure or formatting of the existing worksheets; do not delete standard columns or change column headers.

Worksheet	Detailed Instructions
Document Version History	Complete the Document version history tab following the instructions provided on the tab. ASB (Annotated Study Book) mock up should be referenced in this section along with a summary of changes.
Time And Events	Complete Time and Events with the list of unique forms and provide the Study Design Specifications (SDS) in the ticket to initiate database build in Central Designer. Please follow instructions on the Time and Events tab to complete the various sections. NOTE: this tab will be overwritten at finalization with export from Central Designer.
Dynamics	Record Dynamics specifications for forms and for visits. Dynamic specifications should be finalized prior to SDS approval. Dynamics is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for dynamics that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Dynamics applicable. Please follow instructions on the Dynamics tab to complete sections.
Display Overrides	Record Display Overrides for Rights Groups that differ from 'Item Default Display Override' documented in the ASB. This tab should be used if a User Group (known as a Rights Group) should be given a different display override than item default. For example, Serious Adverse Event Number is set to 'read only' as the default but should be updated to 'enterable' for Study Data Set Manager (SDSM) and Lead Data Manager (LDM) Rights Group Display overrides specifications should be finalized prior to SDS approval. Display Overrides is a cumulative tab. Update as appropriate and use formatting effects strikethrough functionality for overrides that are deleted. Record updates on the Document Version History tab. Enter NA in the first column first row if there are no Display Overrides applicable. Please follow instructions on the Display Overrides tab to complete sections.
DSOPI-CAL Reference	Record the Randomization, subject status information. Column headers should not be changed but can add rows when necessary.
SRDM Reference	Get the latest SRDM reference from PMDR and modify the rows when necessary. Column headers should not be changed. The rows which are necessary for the study should be highlighted in yellow.
Non-CRF Data	This tab is to be populated with data type and the vendor name used for the study. Create a row for each data type and vendor name. The Data Review Tier column for non-CRF data should be completed assessing the entire set of external data (e.g. central lab, ECG) module by module.
Data Review Tier	Percentage of SDV is a product of the the IQMP white boarding process where discussions with the study team determine the appropriate level of SDV required for your study. Data review details are to be populated at SDS finalization with an export from Central Designer (Custom Metadata Report). See the Optimizing Data Review training for a full definition of each data tier.

Study Specific DMW Spec	Optional Tab: Only for studies with approval to deviate from the Standard build that will need to document study specific SRDM changes. Studies using standard DMW mapping should delete this unused, optional tab.
The SDS tabs are color coded as follows:	
Tab Color	Completion Details
Grey	Informational; no changes required
Yellow	Populated during build or when updates are required after Study Design Specs have been approved. Check for completion/accuracy at time of finalization/sign off. Note: Time and Events tab will be over written by Data Management at finalization/sign off with export from Central Designer provided by the InForm Database Programmer (IF DB programmer). See detailed instructions in the Data Management Study Design Activities document.
Green	Populated at finalization/sign off by export from Central Designer by Data Management. See detailed instructions in the Oracle Central Designer for the Clinical Data Scientist: User Guide document.
